Assembly

1: Chain with the Delos: Place a piece of chain on each side to the desired length, clasp, etc.

2: Chain with the central bead: Measure your chain slightly longer than the Delos chain to create a nice offset. Attach your central bead with a head pin.

3: Chain with the beads, which will therefore be the shortest. Make a necklace with 5 beads, spacing them approximately 4 cm apart. I start with the central bead 😊. Then I simply finish each side with chain and therefore the lobster clasp 😊.

I hope you have a pleasant realization.
